The defibrillator has now been registered with the Ambulance service. Users will need to call 999, give them the number on the box to gain a code to access the device.

Velo

The Information Commissioners office had responded to state that it did not appear we had exhausted the public authority's internal review procedure. Before accepting a complaint the Commissioner requires public authorities to be allowed the opportunity to respond to any complaints the requester may have about the way the request was dealt with. They advised the Parish Council to contact the public authority again, asking it to review the handling of the request.

The Clerk has also been contacted by Pete Barker, Community Partnership Officer at Staffordshire County Council. County Cllr. Mrs Wilson had briefed him on the issue, so he contacted the Clerk to obtain a better understanding of the issues to ascertain whether he could assist. An email offering assistance followed the Clerk's telephone conversation, this was discussed by those present, whilst the apology given and offer of assistance was appreciated, it was felt that a complaint

was still required due to the time taken to provide a response to the FOI request and the briefness of the final response received. The Clerk agreed to follow this up.
